WHY CAMP GLIDE?

We offer the best of both worlds—the resources and expertise of a big provider as well as the personal, flexible service of a smaller one.

We have the qualified and experienced staff and behind-the-scenes training you'd expect from a big provider. Our arsenal of equipment means we can support a wide range of activities. At the same time, our programs can easily be tailored to a school's specific needs. And head teachers always have a direct line to our director, should they need it.

We are a community—a place where children are given the space and confidence to try new things and make new friends.

From our signature "Giving Back Project" to our everyday approach to facilitating activities, our values—caring, honesty, respect and responsibility—are at the core of everything we do. Our dedicated staff ensure children feel safe, supported and equipped to make good choices.

We are affordable and accessible—our services are designed to be inclusive of all families.

Affordable rates and simple online booking make it easy for parents to balance childcare and other commitments. Parents can book multiple sessions at a time or ad hoc, and can pay with childcare vouchers or tax-free childcare. We'll be there when parents need us.

We are committed to quality at every level—in our partnership with schools, our service to families and, of course, our provision of childcare.

We know the importance of good communication when partnering with schools and families to provide strong and safe continuity of care. Families can also expect from us flexibility, responsiveness, and a friendly face at our door each day. Of course, when it comes to childcare, safety is paramount. We are Ofsted-registered and consistently meet and exceed Ofsted requirements.
